

How to Access and Use the TITAN Web App

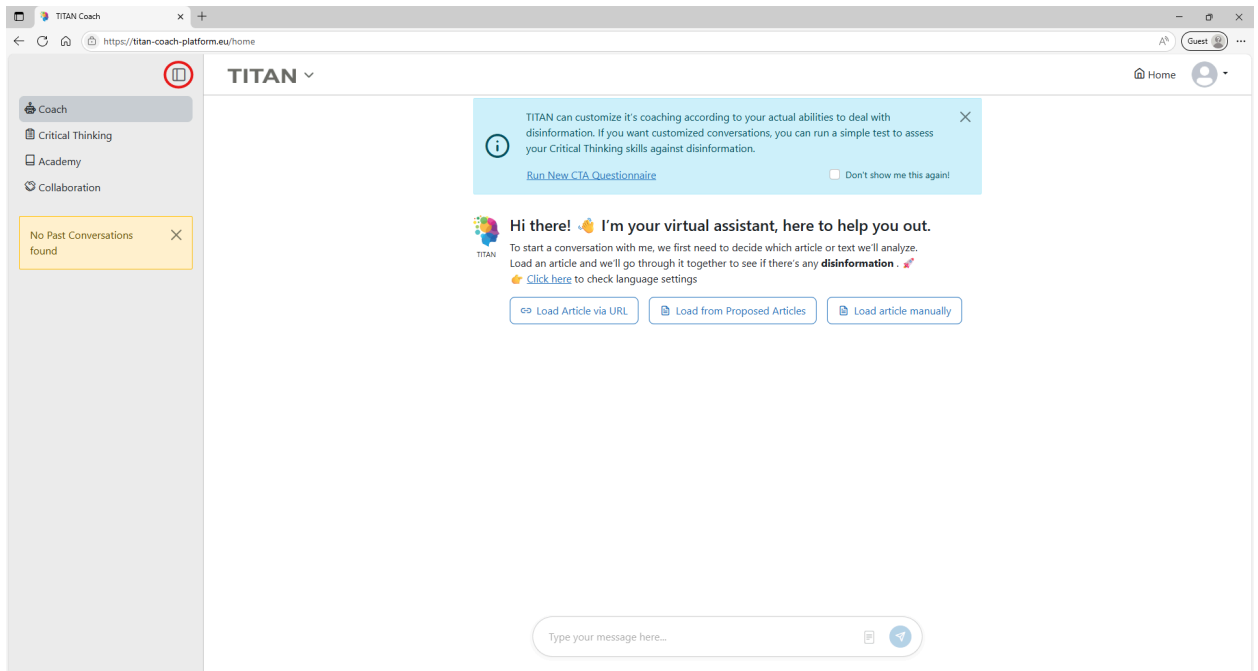

1. Open your preferred web browser (e.g., Chrome, Firefox, Edge).
2. Go to the web app URL: <https://titan-coach-platform.eu/>.
3. On the landing page, click **Access Coach** or **Get Started**

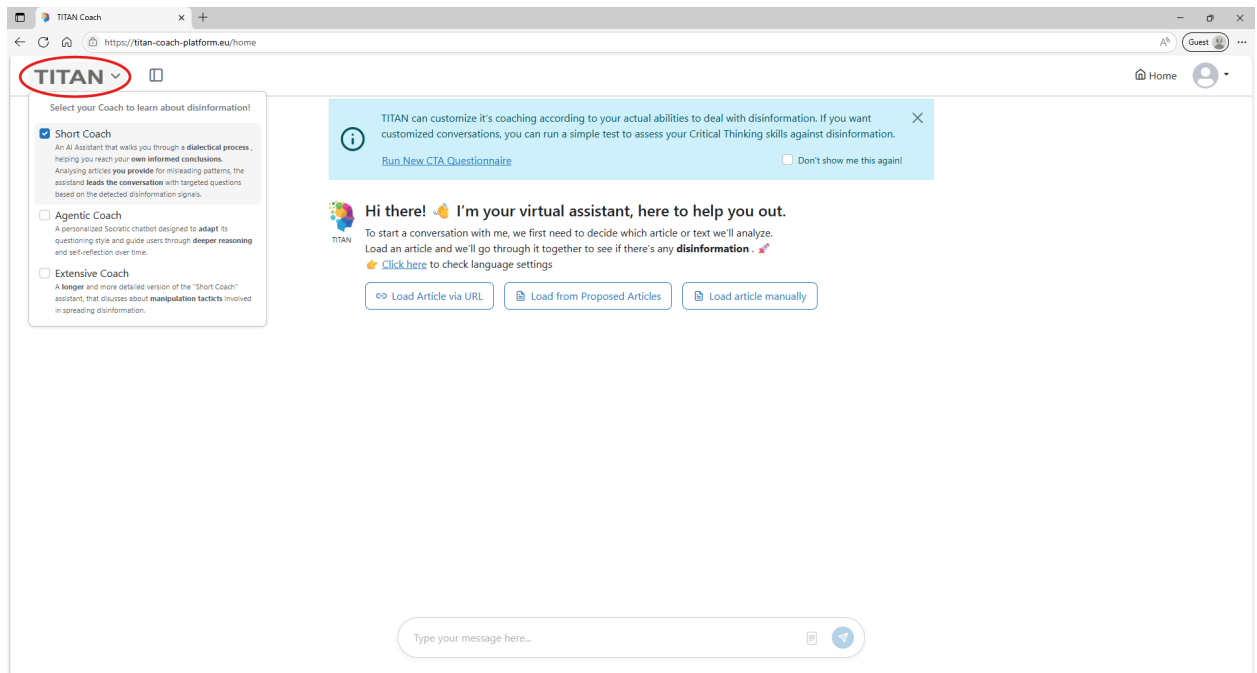

4. On the **Sign in** page, enter your **username** (the one you provided in the form) and **password** (by default: `ch4ng3_th1s`). You'll be asked to change it upon your first login. **Note:** The chatbot is designed to recognize your account as unique. **Do not share it or use it in multiple sessions**, as they would be treated as a single conversation.

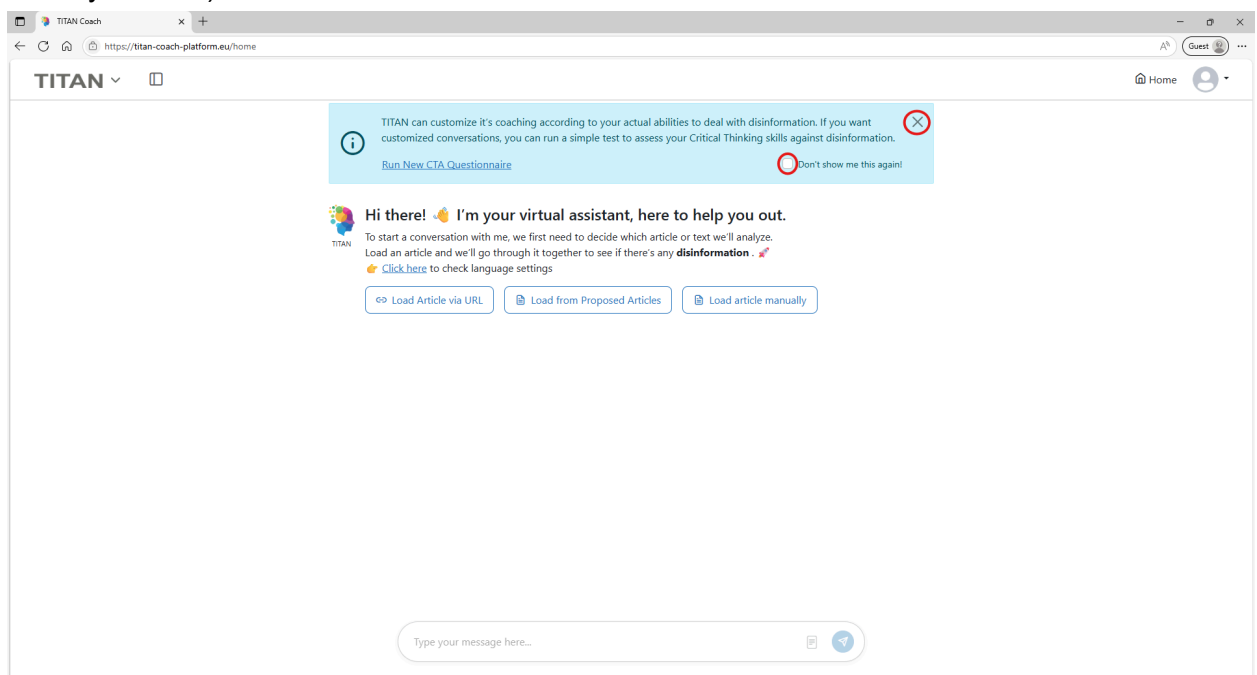

5. Since you just need to get familiar with the chatbot, click the circled icon to hide the navigation panel.

6. Click on **TITAN** to select one of the three available chatbot versions you want to use.

7. Tick the **“Don’t show me this again”** box and click **X** to close the information box. (You don’t need to assess your Critical Thinking skills; the system will assume an average level by default.)

8. Now you’re ready to use the TITAN chatbot! Please **select one** of the three available methods to **Load an Article** for analysis and let the chatbot start an interactive dialogue with you. **Note:** This is a prototype developed as part of a research project, so it may not be completely bug-free. We apologize for any inconvenience and appreciate your patience as we continue to improve it.
